ADMINISTRATION

Administering of Prescribed Medication

The school prefers ***NOT*** to administer **prescribed** medication to students, as medical staff are not employed at the school. Where administration of prescribed medication in school hours is **essential** to the student's health and educational welfare, the procedures set out by the Department of Education will be strictly enforced.

If your child needs to take antibiotics 3 times a day, there is no need to send the medication to school. Medication can be taken before school, after school and before bedtime.

Should your child **need any kind** of medication throughout the day, please remember the following regulations:

- Parents need to come to school and fill in an individual health care plan. **A letter from the doctor** detailing dosage and time of day medication needs to be taken **must** accompany the health care plan.
- The parent needs to provide written instructions about any special requirements for storage indicated by their medical practitioner or pharmacist.
- **Students must not carry medications** unless there is a written agreement between the school and the student's parents.
- For some conditions, prescribed medication and equipment must be immediately accessible, e.g. asthma and anaphylaxis medications such as Ventolin asthma relievers and epipen adrenaline auto injectors. In such cases, arrangements for the carrying of medication and equipment will be devised and documented by the school.

Money Due - *Parent Online Payment (POP) is the school's preferred payment option*
